15 rnd: (23 sc, inc)*2 (50)

16 rnd: 50 sc (50)

In the next round, begin
crochet the face.

@enjoy-toys-
All rights reserved

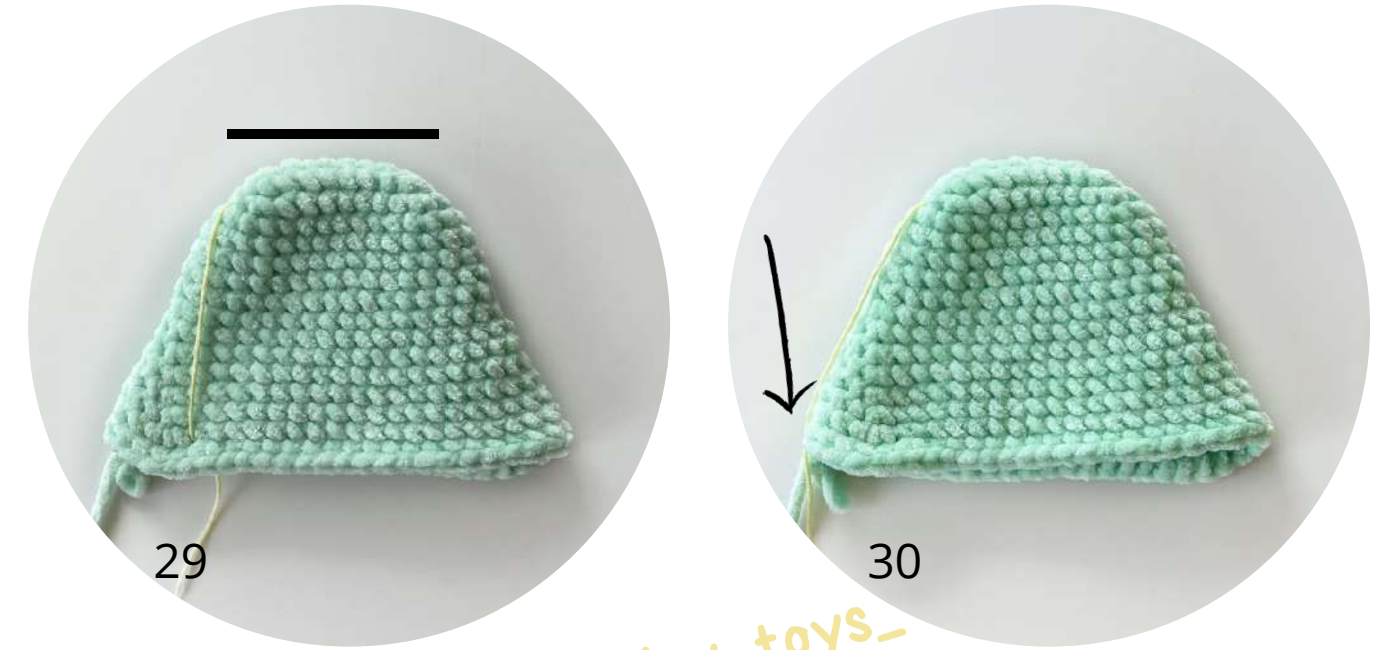

In order for the face to be located in the middle, it is necessary that the next round starts on the side. Fold the detail so that the first round is strictly parallel to the work surface. (photo 29).

It is very important that the 17th round starts on the side. To do this, I unraveled 5 sc in the 16th round (you may have a different amount) and put a marker (photo 30).

In the next round, we add a new color - beige. Do not cut the yarn if it is not indicated in the pattern.

17-18 rnds (2 rounds): green 5 sc, beige 16 sc, green 29 sc (50)
19 rnd: green inc, 4 sc, beige 16 sc, green 4 sc, inc, 24 sc (52)
20 rnd: green 6 sc, beige 16 sc (cut and fasten off the beige color), green 30 sc (52)

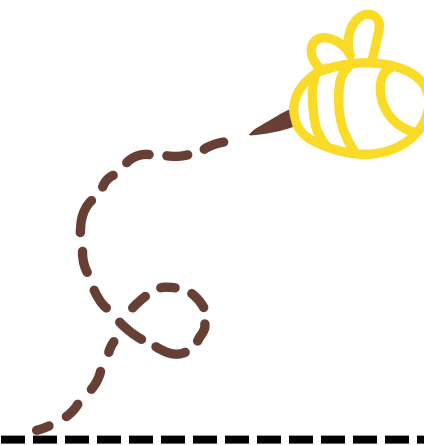

At this point, you should have 4 rounds of beige (photo 33). The face is ready!
In the next round, we crochet arms/arms + beard.

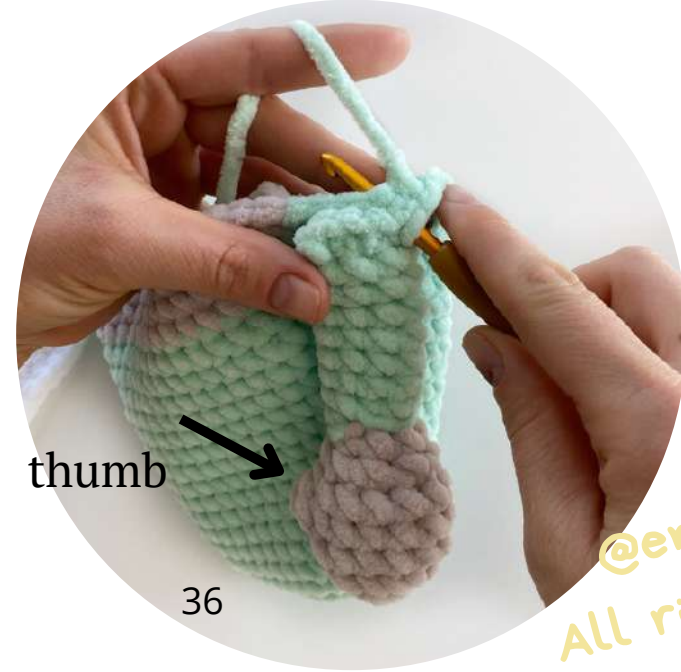

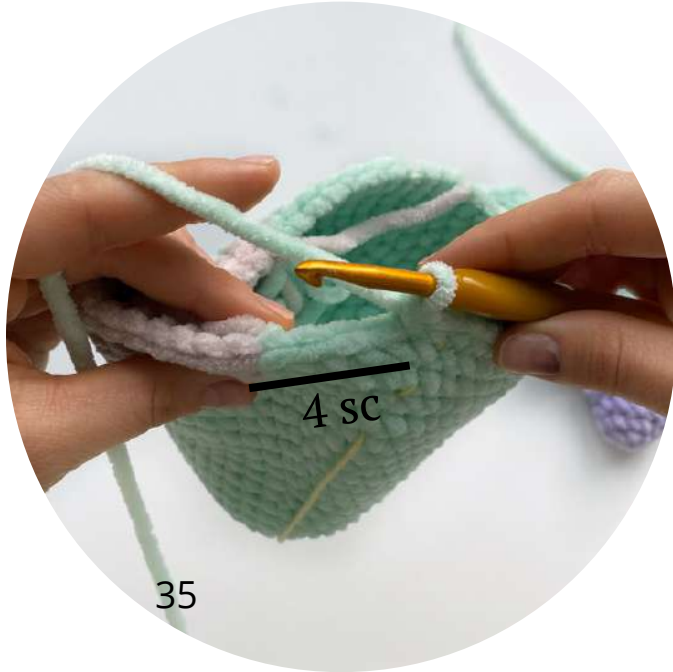

Next, I offer 2 options for attaching a beard and arms in the 21st round.

1 option: crochet the arms and beard in.

2 option: crochet only arms in and sew the beard on.

1 option

@enjoy_toys_ All rights reserved

21 rnd: 2 sc, 4 sc together with the stitches of the right arm (photo 36), the color transition should be facing you. Change the color to white, 16 sc together with the stitches of the beard, the wrong side of the beard should face you, (photo 37).
