Techniques

Third Loop

In this pattern you have to work with the Third Loop. To find this loop, look behind the back loop on the back side of the stitch and you'll see a loop a little bit below. This is the Third Loop. *In the images below you will see the Third Loop on a project worked only with single crochet stitches.*

Glossary:

sc: single crochet || ch: chain || sl st: slip stitch || dc: double crochet || hdc: half double crochet || trc: triple crochet
inc: increase || dec: invisible decrease || BLO: back loop only || FLO: front loop only

Generic Processes

Invisible Join

- Skip next stitch. Insert the needle into both loops of next stitch, pull yarn through. Insert the needle through the back loop of the starting stitch and tighten it just enough so that the join looks like a regular stitch.
- Depending on the part you are working on you should leave a long tail to sew later or weave in the end.

Color Change

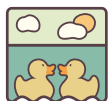

- I make the color change at the final part of the last stitch that you must work with old color.
- Work the last stitch of the old color as usual, until you only have 2 loops on the hook. Take the yarn of the new color, grab it around the hook and pull through the 2 remaining loops on your hook. The next stitch you make will be the first of the new color.

Sew Edges

It's an easy process. Just take your piece, flatten it, and sew the open edges closed. Depending on the pattern, you should fasten off or leave a long tail to sew it later.

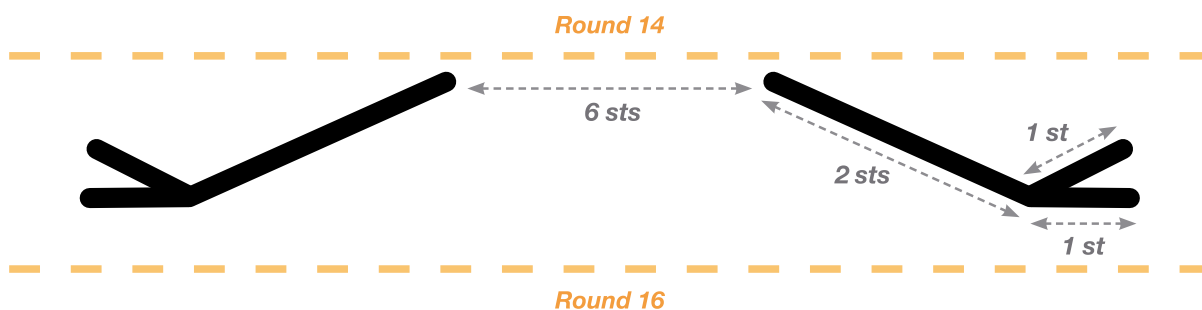

Head:

- You must stuff this part little by little as you crochet it, making the process easier.
- This part is worked continuously. You should use a stitch marker. With Off White yarn create a Magic Ring with 6 sc.

2 round: * 1 sc in next sc, sc inc in next sc * repeat 6 times (18 sts).
3 round: * 1 sc in next 2 sc, sc inc in next sc * repeat 6 times (24 sts).
