Assembly and decoration

- Sew on the eye spots. Fix them with the pins between the 15th and 25th rounds and then sew all sides to the head.

- Fix the nasal bridge with the pins between the 13th and 25th rounds of the head. Sew on.

- Fix the muzzle with the pins between the 22nd and 28th rounds of the head. Sew on. Fill in with hollowfiber while sewing.

- Embroider the eyebrows with a black thread in the 14th round with 11 sc between them. The stitches are 2 sc wide. Then make one upright stitch down from the nose (6-7 rounds long).

- Fix the ears with the pins to the sides of the head between the 4th and 18th rounds and sew on.

- Sew the head to the body. Fix it with the pins first and then sew on in a circle. Add some stuffing material when the small hole is left, then finish the sewing. I add some hollowfiber to the head, the body and the neck to avoid the head from dangling and make it steady.

- Do the eye sculpting looking in the photo. Use a grey thread. Points 1 and 2 are located between the 29th and 30th rounds 1 sc apart from each other. Insert the threaded needle into point 2 and run it into point 6. Then, insert the needle into point 5 and put out in point 1. Pull both tails and make a knot. Insert the needle into point 1 and put out in point 3. Then run the needle from point 4 to point 2. Pull and make a knot. Fasten off and cut the thread, hide the tails inside the detail.

- Make the whites of the eyes with a white thread.
- Brush all the fluffy details with the slicker brush.
